

PARTICIPATE IN AN INTERVIEW!

About technological innovation in liver surgery

Individually or in focus-groups depending on your availability

Tell us what happens
in clinical practice

SCAN ME

Within the **LIVING LAB**
initiative of the
European Project
LIVERATION

Additional margin
coagulation using
radiofrequency (RF):
COOLINGBIS®
reference case

planned sessions:
July 2026

Why participate?

Real-world experience
from those who use it

Barriers and facilitators
in healthcare settings

Practical recommendations
for adoption and scale-up

Which topics would you like to address?

Experience, usability and acceptability

HPB
surgery

OR
nursing

Anaesthesia

Clinical
engineering

Patient
experience

Topics: surgical workflow, safe use and training

Implementation, organisation and transfer

Clinical
leadership

Management /
administration

Procurement

HTA /
assessment

KOLs /
centres

Topics: value, procurement, sustainability and scale-up

2

Possible topics
to choose or
combine

1.30 h
each

*Your experience
drives innovation.*
